

**NEN SRR Review****Recommendation****Originator: David Sohl****Recommendation# 1****Email: David.W.Sohl@nasa.gov****Phone: 301-286-1055****Ref. Slide:****Date: 07/08/2015****Short Summary:**

Possible Cost and Schedule impacts if choosing to go with SLE

**Problem/Comment:**

For the risk presented develop the cost and schedule hit for mitigating the risk if it is realized. Having this documented and in the hands of project management may help to deflect the risk being realized. Also it communicates to the project what the cost and schedule impacts will be if they chose to go with SLE.

**Proposed Resolution:****Assigned to:**

Deepak Kaul

Deepak.Kaul@nasa.gov

**Assigned Date:**

07/13/2015

**Resolution:**

In the time since the SRR NEN has decided to implement SLE in NENG II which is being renamed DAPHNE. This implementation will be handled under a change in requirements at a later date. As a result, SLE is no longer a risk for the project and it will be removed from the set of risks.
